

27⁰

March 1, 1915.

Mr. F. C. Partridge,
Proctor, Vermont.

My dear Mr. Partridge:

Doubtless you have learned the result of President Trainerd's interview with Governor Head Saturday afternoon. I enclose a copy of the memorandum. It seems to me that this is very satisfactory. There is no doubt we shall have a much better appearing chapel and we were in for the organ anyway. I am sure the Doctor would not have been satisfied to leave the building without one, and he had been careful to state that the trustees were under obligation to complete it in every respect for the purpose of a college chapel. I shall recommend the acceptance of this proposition to the trustees at the next meeting, and in the meantime I have authorized the changes with the understanding that the college will pay the \$1031 provided it does not accept Doctor Head's offer.

Faithfully yours,
